The Japanese have a custom of "swallowing the audience" to overcome stage fright. With a finger they draw the word "person" on their hand many times and then swallow all the imaginary people. This gives them the courage to enter the stage. Here, Yuri is getting up the courage to confront a room full af aliens.

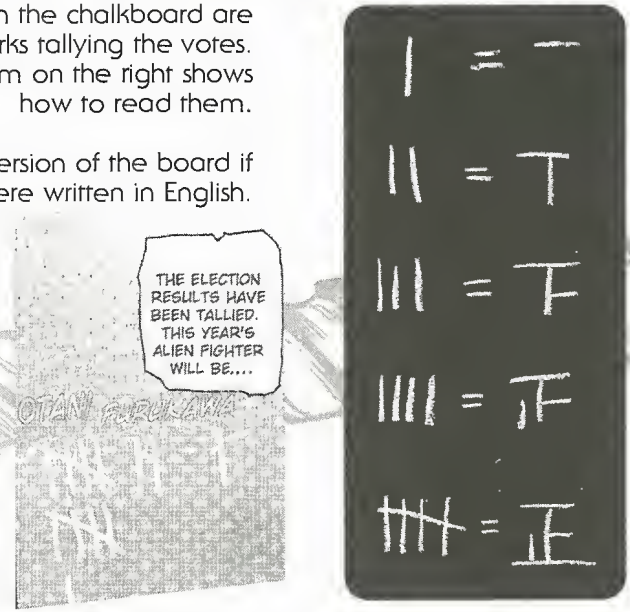
YOU HAVE JUST HALF A YEAR TO GO. THAT'S ALL... HALF A YEAR.*
OK?
YOU KNOW... SUMMER'S COMING. WHY DON'T YOU HAVE A GOOD TIME AND FORGET ALL THIS?

In Japan, summer vacation is only one month long and falls in the middle of the school year. The school year starts in April and ends in March, so after summer, Yuri will still be in 6th grade and will be in the Alien Party until school finishes in March. Later, we see the girls doing hamework together during summer vacation. Japanese children are given lats and lots af homewark aver their month lang vacation. American kids don't knaw how lucky they are!

Translator's Notes

The marks on the chalkboard are Japanese hash marks tallying the votes. The diagram on the right shows how to read them.

Below is a version of the board if it were written in English.



At most elementary schools in Japan, classes are either numbered or lettered. For example, in a school with three 6th grade classes, the classes might be named 6-1, 6-2 and 6-3 or 6A, 6B and 6C. However, kindergarten classes usually take the names of colors or flowers, such as the Blue Class or the Rose Class or the Lily Class. In *Alien Nine*, the author is using the custom of naming classes with flowers, even though the girls are in 6th grade.

CPM: When did you start drawing?

Tomizawa: I think I started in kindergarten.

CPM: How did you learn to draw manga?

Tamizawa: I've been drawing since I was a child. I studied the warks by authars and manga artists that I really liked, and tried to emulate them.

CPM: So you were self-taught?

Tamizawa: That's right. Hawever, when yau become a prafessional, there are ather things that yau learn, like dealing with deadlines. I learned abaut that end af the business by assisting ather professianal manga artists, and abserving haw they warked.

CPM: When did you decide that you wanted to become a manga artist?

Tamizawa: It was always an my mind since I was a little kid. I didn't start aut with the goal ta became a manga artist, but my life just happened ta turn towards that direction.

CPM: So, this was a natural transition.

Tamizawa: Absalutely. When I first started warking, I never felt satisfied. It was never anything specific about the company ar the job; I would just end up quitting. I wandered fram one jab ta anather and wauld draw in my free time. I guess I was destined ta become a manga artist.

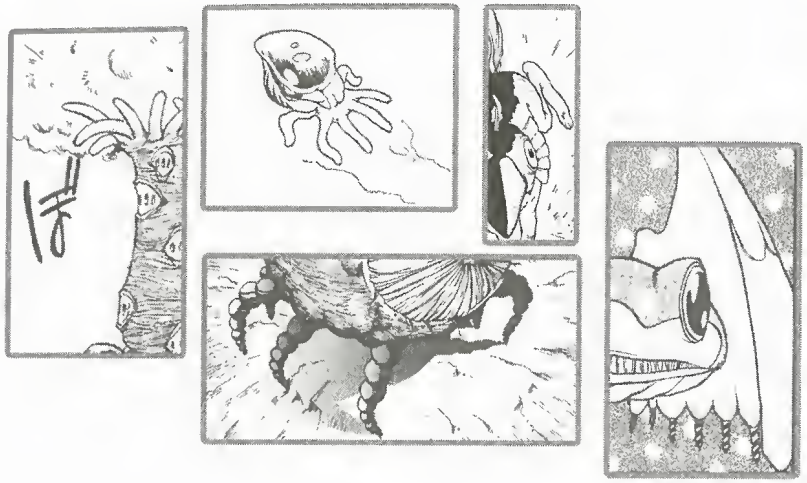
CPM: In both *Alien Nine* and *Milk Closet,* there is a common theme of symbiosis between aliens and humans. Are you trying to convey a specific message?

Tamizawa: The theme of symbiosis appears in all of my work, regardless of genre. I just applied this theme to aliens this time around. I think each reader will pick up something different from this, so I'm not going to impose limitations.



CPM: Do you believe that there's life in outer space? Do you think aliens have visited Earth already?

Tamizawa: I wish I could say that I've seen aliens (laughs). Yes, I believe there's life in outer space.

CPM: What is your favorite scene in *Alien Nine?*

Tamizawa: My favorite scene is the one where all three characters are on summer vacation, having fun. I had a great time drawing those scenes.

CPM: What kind of jobs did you have?

Tamizawa: I worked at a technological company in the development and repair department.

CPM: Is that why the tentacles that extend from the Barg look like drills?

Tamizawa: When I was working in electronics, the company was manufacturing machinery. I used drills to manufacture panels and other items. I tend to draw familiar things.

CPM: Did you use anything as a reference for designing your aliens? It seemed like the aliens in *Alien Nine* were based on insects. Do you have an interest in biology and animals?

Tamizawa: I like biology, so when I create aliens, I think about their home planet and environment. The aliens in *Alien Nine* were based on aquatic animals and amphibians. The aliens from *Milk Closet* are more similar to insects.

CPM: Whot tools do you use for drowing monga? Do you use computers?

Tomizowo: Since *Alien Nine*, I've been using computers for coloring. I use pen and ink for everything else.

CPM: How mony poges con you finish in a doy?

Tomizowo: I don't wont to finish anything in one doy. It just depends on the deodline. If I have a three-doy deodline, I con pump out 6 to 8 pages o doy, but os o writer, I'd rother not do thot. My ideol poce would be one page o week, but thot's never ollowed.

CPM: Why is it thot cute girls hove to deol with the oliens and not odults?

Tomizowo: I thaught it would be best to use cute little girls to make the story work. I wosn't forced into chaosing young girls. I don't wont to drow it if it doesn't interest me. I enjoy drowing the girls, ond I think it's eosier for everyone to empothize with female chorocters.

CPM: Which chorocter, including the oliens, is most similor to you?

Tomizowo: I would soy the Borg on their heods.

CPM: Which chorocter is your fovorite? Which chorocter do you dislike?

Tomizowo: I like oll of my chorocters, including the villoins. There is no such thing os o chorocter that I dislike. I love oll of them ond thot's why I like to tease them o bit.
